LOCAL MATTERS.

To Currespondents. We are continually receiving communications on political and other matters from persons who do not attach their proper names to the articles sent; and we take this occasion of repeating that nothing can be published in THE DAILY NEWS without being indorsed by some responsible individual.

ACKNOWLEDGMENT.-The Ladies' Memorial Association of Mount Pleasant desire us to return their thanks to Messrs. EBAUGH & MALONEE and to Messrs. Hupeins & Owens, for their donations of lumber for the purpose of enclosing the Soldiers' Cemetery at that place.

FIRE.-An alarm of fire was sounded about 7 chimney in George street. A few engines turned out, but the excitement was soon allayed by the chimney burning out, and the engines returned THE STREET RIOTERS .- The parties concerned

in the late attempt on the street cars have all been turned over to Lieutenant Johnston, and the trial of the case will take place before him at 10 A. M. to-day, it having been postponed from yesterday in order to collect the necessary evidence.

PEAS, GRAIN, &c .- We invite attention to the advertisement of Messrs. R. ARNOLD & Co., No. 219 Meeting street, offering to the public choice lots of the above articles-the peas now landing. The goods will be delivered free of charge.

MILINERY EMPORIUM .- Mrs. S. WATTS, who is already favorably known to our fair readers, will add to her popularity by offering for their inspection a choice stock of millinery goods. Mrs. Warrs' establishment is probably more frequented than any other on King street, and the announcement that she is prepared to furnish the latest spring novelties will set many pretty heads crazy, and it will tax the energies of Mrs. W. and her assistants to answer the numerous questions propounded by the fashion seekers.

THE AMERICAN FARMER.-We have received the April number of this magazine from Mr. S. HABT, the agent for the publishers, and find that it fully sustains its reputation as the oldest and best agricultural publication in the United States. The Farmer does not confine itself to agriculture, but is full of useful information, and is an invaluable work for the Southern planter, and should be taken by all who wish to succeed in their operations.

GRAND CONCERT.-The music-loving portion of our community will be pleased to learn that Mr. OSWALD MEYER and his two sons, Orro and Julius MEYER, will give an instrumental concert at the Turner Hall, No. 70 King street, between Broad and Tradd, on Monday next, at 8 P. M. The TURNERS are well known in our city, and many who have attended their dramatic entertainments will gladly avail themselves of this opportunity, to b. - those delicious strains that her MEYER knows so well how to produce.

CHEAP FEEIGHT TO NEW YORK .- Cotton shippers will be gratified to learn that an important reduction has just taken place in the charge for transporting cotton from this point to New York by steam. Messrs. RAVENEL & Co., agents for the LEARY line of steamers, viz: the steamships Quaker City, Saragossa and Grenada, have put down their freight on cotton to New York to one dollar per bale, which will be the rate for either Upland or Sea Island Cotton. This will be an in-

STEAMSHIP SEAGULL.-We regret to learn that Capt. Durron's fine steamer the Seagul, had a trifling accident to her machinery on her voyage hence to Baltimore on the 30th, and has put into Fortress Monroe for repair. The accident is understood to be of such a character as will not disarrange her regular trip the present week from

We trust such will be the case, for the business between our sister city of Baltimore is growing largely and we cannot spare any of our always punctual steamers from their accustomed work.

NEW YORK MERCANTILE JOURNAL. This valua ble journal, now some four years old, has come to be one of the most important and best conducted commercial papers in the United States, affording the most complete weekly price lists of New York prices now published, and thre commending itself to the attention of every merchant. The paper is very large size, published weekly, and costs only \$3 per annum, or may be ordered of the New York Mercantile Company, No. 2 Franklin Square, New York. We wish its well-meant efforts every

THE FARMER, devoted to Agriculture, Horticul ture, the Mechanic Arts and Household Economy. ELLIOTT & SHIELDS, Richmond, Va.

The April number of this excellent monthly, is now before us. It is replete with useful and instructive matter, both original and selected. It opens with a memoir of RICHARD SAMPSON, Esq., a model farmer of the Old Dominion. This is followed by interesting editorial articles on "Free Labor in the West Indies," on Flax, on method in Farming, on the trial of Labor Saving Implements,

At the Annual Meeting of the Corporation of Zion Presbyterian Church, (Glebe street) held on the evening of the first instant, the following named officers were elected to serve for the ensu-JAMES H. TAYLOR President.

THE CANARY TROUPE.—We take pleasure in noting the arrival of a troupe of these distinguished feathered songsters. This troupe is composed of both male and female voices, and they are the finest vocalists ever brought into this country. They have obtained rooms during their stay with Messrs. SLIDER & BURKE, one door below the Mills House, where they will give public receptions. Music exerts a powerful influence upon the passions, but there is no sound more sweet than the melody of the birds. Man has endeavored in vain to make instruments that would resemble their tone, but has never succeeded in imitating nature to perfection. A canary is one of the most delightful of our singing birds, and is an acquisition to every lady's boudoir. Those advertised by Messrs. SLIDER & BURKE are the best German birds, and we advise a visit to the Concert Hall.

BUSINESS MAP OF CHARLESTON.-Mr. C. T. AUBRY the publisher of this map, arrived on the Saragossa last evening, and has brought with him a number of these maps for distribution to subscribers. Mr. Aubui has been detained much longer than he anticipated by an accident to his title piece, but is now ready to present our citizens with a map perfect in all of its details. This map is six feet by six, and has a strong and durable canvas back. It differs in many essential particulars from most maps, having not only the streets clearly defi.ed, but the houses and their numbers are easily recognized. Around the border are the business cards of many of our prominent merchants, while others are upon the houses occupied by them. This map will be a valuable acquisition to our citizens, and will be useful both as an ornament and as a directory. Mr. AUBIN will call on his subscribers this morning; and deliver those engaged:

Rodrigues' Pulmonio Elixir Specific.—In referring to this medicine in yesterday's issue we unintentionally were guilty of several errors, and gladly take the present opportunity to make the corrections. The specific was prepared by Mrs. RODRIGUES, a respectable lady of this city, and from her long experience in nursing the sick, she feels satisfied that she is offering the public po nostrum, but a remedy that has been tried and found efficacious in numerous instances. Mrs. R. has prepared this specific with great care, and her only design in offering it for sale is not for a p9cuniary reward, but simply to reimburse herself for the trouble and expense necessary to prepare it. Dr. CAULIER'S store being on the opposite corner, we unwittingly credited him with the proprietorship, instead of the rightful owner. Since that time we have become better informed, and can now confidently state to those afflicted with prise.

Geographically Charleston has the best position Geographically Charleston has the Southern coast. pulmony complaints that their disease is not incurable. The doctors say while there is life there is life there is high the truing an outlet, both by sea and rail, for the pro-

THROWING BRICKS.—On last Monday night, as | believe, can be effected by concerted action on the Policeman Thor was performing his duty as door part of the different corpo sentinel in front of the Guard House, a brick was thrown at him from the other side of the street, with such force as to leave a portion of it adhering to the jamb of the door, against which it struck, passing just over his head. Had the policeman been so unfortunate as to have been hit by this missile, he would, no doubt, have been seriously, if not fatally injured.

The scoundrel who took this cowardly way to hurt a most excellent man made his escape so expelitiously that no trace could be discovered of him, though immediate search was made.

SEWING MACHINES .- These are now indispensable additions to a well regulated household and the object is always to procure one that combines the modern improvements. This is often a difficult matter and the merits of the different makers are discussed frequently before the purchase is made. We are happy to inform our fair readers that this difficulty has been obviated, and by reference to an advertisement of Messrs. J. E. ADGER P. M. yesterday, occasioned by the burning of a & Co., No. 62 East Bay street, they will see that a fine single thread machine can be purchased for \$18. The machines are made by Mr. J. G. Folsom, and the low price should at once commend them to public favor.

OUR STEAM FLEET .- Yesterday afternoon four steamships could be seen making their way up the harbour, from the offing-and as they swept upon the full flood tide, they attracted the attention of many spectators congregated on the water front of the city.

Breference to our marine list, it will be noticed th: two of the steamers were from Baltimore, namely: The "Falcon," Capt. REED. with a very heavy freight, including 40 cavalry horses for the United States Quartermaster-and the "Patapsco," Capt. NEFF. From New York, the side-wheel steamer "Manhattan," Capt. Collins, and the regular line steamer "Saragossa," Capt. CROWELL. We record with pleasure the arrival of this quartette of steamers, and wish them all profitable voyages, and a long service on their respective

MAYOR'S COURT, April 2 .- Miley Garret, a fash ionable "lady of color," who had been at a ball, and, in order to vary the pleasures of the exeming, had indulged in a set-to with several of the gemmans present, was fined \$5, as a recompense for the delight she experienced.

David Brown, a colored laborer, who not only refused to work for a dollar and a quarter a day, but attempted to interfere with others of an industrious turn, who were willing to take that amount, was fined \$5.

An elderly female, who refused to let her chimney be swept, was mulct in \$10. Edward Moultrie, a very black individual, who 'drawed" a sling shot on some darkeys with whom he was quarrelling, was fined \$8.

BOARD OF TRADE.—The election for officers, to serve during the ensuing year, took place between 12 and 3 o'clock yesterday, and the following is the result of the ballot:

FOR PRESIDENT. E. W. MARSHALL. FOR VICE-PRESIDENT. H. H. DELEON. HECRETARY AND TREASURER.
JNO. B. STEELE. EXECUTIVE COMMITTEE A. SIMONDS. EDWIN BATES. WM. GURNEY. GLORGE H. MOFFETT. W. S. HASTIE. E. WILLIS. HENRY COBIA. D. F. FLEMING. A. R. TAFT. C. FRONEBERGER. M. STRAUSS. GER. L. D. MOWRY. W. T. BURGE. GEORGE W. CLARK.

Immediately after the election had been declared, Mr. STRAUSS moved that the Secretary and Treasurer's Report be read, whereupon John B. STEELE, Esq., the Secretary and Treasurer, read

his report: dentitemen: In accordance with the practice of all associations of this kind, the Secretary presents to you a condensed report of the transactions of this Board during the period of his official services. Before entering, however, upon the details of a formal report, he would take occasion to acknowledge the goodness of Him in "whom we live, and move, and have our being," by whose favoring care the life and health of each one of us has been preserved. It can rarely be said of an association, so Gentlemen: In accordance with the practice of served. It can rarely be said of an association, so large as curs, that, at the close of the year, no death has been recorded. Surely, then, it is right that this manifest providential care should be

gratofully acknowledged.

He would, also, take occasion to say that his labors have been cheered and lightened by the cordial co-operation of the members of your hon-orable body, the constituted guardians of the trade and commerce of this city, likewise by the assistance of others, who, though holding no connection with the Board, are, nevertheless, our

friends.

He entered upon his duties, personally, a stranger to the majority of the Board, and it is gratifying to him to have received from the Committee appointed to examine his books, also from the Executive Committee and from the Board, who adopted unanimously the resolutions reported by them at the heat receives the Sattering testimony of his the last meeting, the flattering testimony of his labors, and he begs to return to all of you his heartfelt thanks.

was entirely broken up by the ravages of war, has greatly revived, and has, through its several agents, awakened to a sense of its importance, and seems resolved not to be behind in the race for the golden

I am happy to inform you, has come forward and promptly paid his arrears. While our membership has been rapidly increasing, I am called upon to report only one resignation from the entire list, Mr. Joseph A. Morgan, a member of the Executive Committee, and this was in consequence of his removing from the city. in consequence of his removing from the city.

GENERAL BUSINESS.
Soon after the organization of the Board subcommittees were appointed, and various impor-tant questions referred to them for consideration. The Chairman of the Committee on Hall, Reading Room, and Library made a report, which was referred back to the Executive Committee for prulential reasons.

This is a subject which has, since the formation of the Board. occupied its attention, and the Sec-retary begs to recommend an early action on the part of the Board.

It is to be hoped that this Board will lead off in this grand scheme, not only for the diffusion of knowledge and intercourse among its members, but for the good of the people of our city and State.
The Committees on Inland Transportation and
Coastwise Navigation, two of the most important of our committees, have been at wo.k tant of our committees, have been at work
the entire year, and presented several interestivg reports. Besides these we have had
interesting debates, Reports on the Blue Ridge
Railroad from Messrs. Trenholm & Gourdin—on
the Bankrupt Law, Rates of Wharfage, on the
construction of the Oheraw and Coalfield Railroad,
when addresses were made by Messrs. B. D. Townsend and Allen McFarland—the Usury Laws, and
many other topics. many other topics.

We have also put ourselves in communication

with Chambers of Commerce and Boards of Trade in various parts of the United States, and have been in receipt of important communications from many of them.

Altogether the Churleston Board of Trade has every reason to feel gratified at the degree of success that has crowned its new-born efforts thus far.

It has often been asked, what has the Board of Trade done? Doubtless the objects and intentions of this body are, in many instances, misunderstood. It should be impressed upon the minds of those who are apt to ask, what has been accomplished? that the Board of Trade is no legislative body, endowed with the privilege of enforcing its convictions in the shape of laws upon the people about us. We have no actual pover to improve business facilities or destroy monopolies; but we have the advantage of making the feeling of the

have the advantage of making the reening of the community publicly known.

Every merchant of our city, in whatever kind of business, has the privilege of joining our body, and thus secure to himself the advantage of expressing publicly his ideas on the business points of the day.

Merchants of every grade and standing meet here on equal footing. All have a right to be heard, and the decision of the Board of Trade may

always be considered an index to the feelings and wishes of a majority of the business men of our city. We pretend, through our members, to represent mergy, experience and cap tal, and there is no energy, experience and cap tal, and there is no reason why the mercantile voice of Charleston should not meet with the same attention and respect as is given to associations of the same character in our sister cities.

Let us not, then, grow weary in well doing, and I think we have every reason to look forward to a bright and happy fitting. right and happy future.

FINANCE.

The aggregate receipts of the past year amount to \$2163 62. Expenditures \$394 51, leaving a balance in the Treasury of \$1769 11.

Before closing this report, your Secretary knows that he is expressing the s ntiment of every individual member of the Board when he mentions the many acts of kindness and attention to our body on the part of Messrs. White & Mixer.

Not only have we had the use of their elegant club room during all the past year, free of charge, but they have furthermore furnished us on all occasions with every conceivable facility in their out they have furthermore furnished us on all oc-casions with every conceivable facility in their power, and what, under other circumstances, would have been an one or obligation, by their polite-ness and pleasant manner has made it almost unness and pleasant manner has made it almost unfelt, thus in reality, however, entitling them to greater thanks from the Board.

All of which is respectfully submitted.

JOHN B. STEELE, Sec'ry.

Upon motion of Mr. STRAUSS, it was ordered that the Report be entered on the minute book, and published in the daily papers of the city. A committee of three was appointed to wait upon the newly elected officers and inform them of

their election. Messrs. EASTERBY, TROMPSON and Moise, were appointed on this Committee. The officers were then introduced and addressed the Board in a few brief remarks. Letters of application were read from the following gentlemen:

Upon motion, the rules were suspended, and the applicants were elected by acclamation. Un motion of Mr. E. W. MARSHALL it WAS Resolved. That the thanks of the Board are

hereby tendered to W. S. Hastie, Esq., and E. Willis, Esq., for the able and unpartial manner in which they have discharged their duties. On motion of Mr. MARSHALL, it was next Resolved. That the thanks of the Board are hereby tendered to John B. Steele, Esq., for the able and indefatigable manner in which he has dis-

harged his duties. Both resolutions were unanimously adopted. The Board then adjourned. BROWN'S BRONCHIAL TROCHES .- "Your Troches

SEA FOWL GUANO.

A NALYSES OF THIS GUANO SHOW IT TO BE equal to PERUVIAN in Fertilizing Properties, though differing in the proportions of the same elements. The SEA FOWL GUANO contains less Ammonia, but has 16 per cent. of Soluble Phosphare and nearly double the quantity of Phosphate of Lime, which, with the Ammonia present, makes it superior to Peruvian as an early crop producer, and a more lasting Fertilizer.

AT THE WONDERFUL REVELATIONS MADE BY THE GREAT ASTROLOGIST. Madame H. A. PERRIGO.

SHE REVALS SECRETS NO MORTAL EVER ANEW. SHE REVALS SECRETS NO MORTAL EVER ANEW.

She restores to happiness those who, from doleful ovents, catastrophes, crosses in love, loss of relations and friends, loss of money, &c., have become despondent. She brings together those long separated, gives information concerning absent friends or lovers, restores lost or stolen property, tella you the business you are best qualified to pursue and in what you will be most successful, causes speedy marriages, and tells you the very day you will marry, gives you the names, likeness and characteristics of the person. She reads your very thoughts, and by her almost supernatural powers, unvails the dark and hidden mysteries of the future. From the stars we see in the firmament—the malefic stars that overcome or pr cominate in the configuration—from the aspects and positions of the planets and the fixed stars in the heavens at the time of birth, she deduces the future destiny of man. Fail not to consult the greatest Astrologist on earth. It costs you but trifle, and you may never again have so favorable an opportunity, Consultation fee, with likeness and all desired information, \$1. Parties living sta distance can consult the Madame by mail with equal safety and satisfaction to themselves, as if in person. A full and explicit chart, written out, with all inquiries answered and likeness enclosed, sent by mail on receipt of price above mentioned.
